OF THE CHICAGO DENTAL SOCIETY

Confidence...

in your dentures

The new denture patient has confidence in your dentures ... and in your professional skill and integrity. That confidence *can* be strengthened by the prescription of Co-re-ga, which so effectively facilitates a quicker and more comfortable adjustment to proficiency with dentures.

You

can't take it with you!

TICONIUM is cast to FIT!

No plier-fits in a Ticonium case. You'll marvel at the inlay-accuracy which makes clasps hug the tooth with a fond caress.

Ticonium alone of the chromes has fine-grain for strength; Inlay-accuracy for fit; Ti-Lectro polish for brilliance. That spells FIT!

You are missing the best if you don't prescribe Ticonium on your Prosthetic cases.

For cases that FIT . . . specify

Contributions: Manuscripts should be typewritten, double spaced, and the original copy should be submitted. Every effort will be made to return unused manuscripts, if request is made, but no responsibility can be accepted for failure to do so. Anonymous communications will receive no consideration whatever.

Manuscripts and news items of interest to the membership of the society are solicited.

Forms close on the first and fifteenth of each month. The early submission of material will insure more consideration for publication.

Published semi-monthly by the Chicago Dental Society. Publishing, Editorial and Advertising Office: 30 North Michigan Avenue, Chicago 2, RAndolph 6-4076. Annual subscription \$4.50; single copies 15 cents; circulation 5,300 copies.

THE CALENDAR

- April 6:** NORTH SIDE BRANCH: Regular meeting and election of officers at the Edgewater Beach Hotel; polls will be open from 6:00 to 9:00 p.m. The speaker of the evening will be Dr. Thomas K. Barber; his topic, "Pedodontic Appliances for the General Practitioner."
- April 6:** WEST SUBURBAN BRANCH: Round Table Meeting at 12 noon at the Oak Park Club. Dr. William P. Schoen will speak on "The Illinois State Dental Journal and Its Relation to the Dental Society."
- April 7:** KENWOOD-HYDE PARK BRANCH: Clinic Night and election of officers at the Sherry Hotel. Detailed program is given on page 10.
- April 7:** SOUTH SUBURBAN BRANCH: Monthly meeting at Cavalini's in Midlothian. The speaker will be Dr. Gordon Rovelstad; his subject, "Children's Dentistry."
- April 7:** NORTHWESTERN UNIVERSITY DENTAL SCHOOL: Annual Alumni School will be held at the Dental School.
- April 8:** NORTHWESTERN UNIVERSITY DENTAL SCHOOL: Annual Homecoming—an all-day program has been arranged; please turn to page 12 for further details.
- April 14:** ENGLEWOOD BRANCH: Regular meeting at Nielsen's Restaurant. Dr. Frank Kropik will be the essayist; his topic, "Children's Dentistry." Also, election of officers will be held.
- April 14:** NORTH SUBURBAN BRANCH: Regular meeting and election of officers at the Georgian Hotel. Martin H. Seifert, M.D. will discuss "Poliomyelitis and Its Relation to Dental Practice."
- April 14:** NORTHWEST SIDE BRANCH: Regular meeting at the Normennes Singing Society. Dr. Robert G. Kesel will talk on "The Present Status of Caries Control."
- April 14:** WEST SIDE BRANCH: Regular meeting and installation of officers will take place at the Midwest Hotel. Dr. John B. LaDue will be the essayist; his topic, "Full Denture Construction."
- April 14:** WEST SUBURBAN BRANCH: Annual Clinic Night at the Oak Park Club. Complete program is published on page 14.
- April 15 & 16:** LOYOLA UNIVERSITY, SCHOOL OF DENTISTRY: 70th Annual Homecoming; further information is shown on page 10.
- April 21:** CHICAGO DENTAL SOCIETY: Regular meeting and annual election of officers will be held in the North Ballroom of the Conrad Hilton Hotel, 8:00 p.m. The speaker will be Dr. Arthur Elfenbaum; his subject, "Diagnosis in the Dental Office of the Future." For further information anent our essayist and his topic, please turn to page 13.

President's Report

James H. Keith, D.M.D.

According to all reports, the 1953 Midwinter Meeting was tops in performance, due to the efforts of a considerable number of people, many of whom, unfortunately, will never receive the credit due them, except through the columns of this magazine. It is an impossible task to thank each one personally.

Being *hors de combat* during most of the meeting, your President made only brief appearances, which goes to prove that no one person is indispensable. The other officers undertook most of the tasks assigned him and filled all their pinch-hitting roles very admirably.

It is particularly pleasing to note that a few innovations paid off. The Ladies' Luncheon is a case in point. We had to guarantee to sell 600 tickets to this affair to break even (incidentally we sold 660). The Narcissus Room at Field's could only be secured on that basis, because the public was excluded and Field's lost the revenue which would otherwise come in through that source. This explains why it was necessary to charge, what a few

disgruntled individuals called, "too much money for a lunch." The Dinner-Dance paid off too, despite the counter attraction of the Davey-Gavilan fisticuffs. Most of the men who would ordinarily come to the Dinner-Dance were torn between two fires—one coming from their wives and the other from their desire to view the fight. The problem was solved to everyone's satisfaction by postponing the floor show until 10 o'clock. Chuck, very considerately, hit the canvass a few minutes before that time.

Word has been received, even as this is being written, that our attorneys now are quite confident that the hearings before the Master in Chancery will be concluded during April. This means that there is a possibility, a bare possibility, that the litigation may be wound up before the current fiscal year expires. In the meantime, as a representative of the Legislative and Law Enforcement Committee so eloquently stated in the March 15 issue, "Help whenever and wherever possible. This is freedom and democracy in action."

LOYOLA BENEFIT SOCIAL

FOR DR. MICHIELS' FUND

Loyola University's president and alumni show Dr. Thomas A. Michiels tickets they are selling for the benefit social in behalf of the Dr. Michiels' Fund. Party will be held Wednesday, April 22, at Loyola's Union House, 6525 Sheridan rd. Dr. Michiels, a dental alumnus of the university, and his wife are both polio patients at Columbus hospital, and their oldest son, Robert, 5, is recovering from a polio attack.

Committee members are (l. to r.) the Very Rev. James T. Hussey, S.J., Loyola's president; Francis Corby, Jr., 410 Washington, Wilmette; Joseph Caparros, 1225 Forrest, Evanston; and Dr. Joseph Porto, 345 Sherwood rd., Highland Park.

Dr. Michiels, 31, his wife, Beatrice, 26, and Bobby were stricken with polio last fall, shortly after Dr. Michiels had established his dental practice in Park Ridge. Mrs. Michiels is still confined to an iron lung, but Dr. Michiels is able to spend most of the day out of his chest respirator.

KENWOOD-HYDE PARK BRANCH

CLINIC NIGHT

ELECTION OF OFFICERS

Tuesday, April 7

Sherry Hotel

PROGRAM

1. "Management of So-Called Dry Socket" by Drs. D. Laskin & I. Robinson
2. "Prosthetic Appliances" by Dr. R. Appleman
3. "Anatomic Duplication and Natural Coloring Technique" by Dr. Paul Chung
4. "Extension Cone Technique" by Dr. J. Gevirtz
5. "Space Maintainers" by Dr. David Torch
6. "Banded Amalgam Crown" by Dr. A. Sherow
7. "Centric Relations in the Supine Position" by Dr. W. R. Eberle
8. "Bread and Butter Dentistry" by Dr. Harry Raffel
9. "Current Advances in Fixed Bridgework" by Dr. Francis Pelka
10. "Differential Diagnosis of Soft Tissue Lesions" by Dr. Seymour Yale

Dinner, 7:00 p.m.

70th ANNUAL HOMECOMING LOYOLA UNIVERSITY, SCHOOL OF DENTISTRY

1757 W. Harrison St.

Scientific Meeting at School

April 15 and 16

NOTE: In addition to the fine essay program published in the March 15 issue, an excellent array of table clinics will be presented on Thursday, April 16, 2:00 to 4:00 p.m. Dr. Henry Boris is chairman of this division.

LIMITED ATTENDANCE: Oral Surgery Clinical Demonstration — by Dr. Viggo Sorensen on April 15, 3:00 p.m. — by Dr. Benjamin Gans on April 16, 9:30 a.m. Each session's attendance limited to ten.

Banquet — Wednesday, April 15

GOLD ROOM, CONGRESS HOTEL

Seating preference given to organized Class Groups
Contact Banquet Chairman, Dr. Carl Madda, 25 E. Washington St.

NEWS AND ANNOUNCEMENTS

NOMINATION FOR C.D.S. OFFICES ANNOUNCED

Nominations for the various offices of the Chicago Society to serve during 1953-54 were closed on March 20. According to Article IX, Section II, of the Constitution and By-Laws, all nominating petitions must be submitted not later than thirty days prior to the annual election. Only one candidate has been nominated for each office, so there will be no contest.

The unopposed candidates are: President-elect, Samuel R. Kleiman; vice-president, Edward W. Luebke; secretary, Gustav W. Solfronk; treasurer, Otto W. Silberhorn. Their formal election will take place at the regular April meeting. President-elect Elmer Ebert will be advanced automatically to the presidency and will be installed at the May meeting.

ANNUAL GOLF OUTING

The Annual Golf Outing of the Chicago Dental Society will take place this year on the traditional third Wednesday in June which, in 1953, falls on the 17th. The Sports Committee Chairman in charge of the outing will be Linn Cooley. Dr. Cooley has announced that the outing will be held at the Woodridge Country Club near Lisle on Route 53. In the heart of the DuPage River Valley, this club is noted for both its scenic surroundings and for its sporty course. Furthermore, it enjoys a fine reputation for good food. So, when we learn that a day of golf followed by a roast beef dinner complete with our usual added features in the way of prizes and fun will cost just \$7.00, we should mark out the date at once and plan on spending the 17th of June at Woodridge with the gang.

A.D.A. RELIEF FUND DRIVE GOES OVER THE TOP!

Word reached us just at press time that the total receipts in the A.D.A. Relief Fund Drive had reached \$100,030, passing the hoped-for total of an even hundred thousand. This cause for elation on the national scale is mirrored in the state situation, for Illinois passed its quota of \$7,570 with a total of \$7,586—sixteen dollars to the good!

NORTH SUBURBAN BRANCH NOMINATES

The Nominating Committee of the North Suburban Branch of the Chicago Dental Society has submitted the following slate: President, O. E. Scott; president-elect, Herman P. Kelder; vice-president, George L. Carey; secretary, Waldo O. Urban; treasurer, Francis M. Yager; director to the Chicago Dental Society, Walter T. Poyer.

The regular meeting and election of officers will be held at the Georgian Hotel on April 14. Martin H. Seifert, M.D. will discuss "Poliomyelitis and Its Relation to Dental Practice."

ADDITIONAL NOMINATIONS FOR NORTH SIDE BRANCH ELECTION

The following members have been nominated, by petition, as candidates for officers of the North Side Branch: President, William Osmanski; vice-president, R. E. Kadens; secretary, Harold Sitron; treasurer, Herbert Gustavson; librarian, Chester Stanley. The election will be held on Monday, April 6.

(Continued on page 30)

**NORTHWESTERN UNIVERSITY
DENTAL SCHOOL ALUMNI**

ANNUAL HOMECOMING

April 8

•

**Morning Session, 9:30 to 12:00
25 table clinics at the Dental School
311 E. Chicago Avenue**

•

The members of the Chicago Dental Society are extended a special invitation to attend the afternoon session in Thorne Hall, Lake Shore Drive at Superior Street, 1:30 to 4:30 p.m. This is an unusually attractive program as it brings to Chicago two of the outstanding dentists of Europe, who have made major contributions in the study of occlusion —

Dr. Henry Beyron — "Rehabilitation of Occlusion by Selective Grinding and Restorative Dentistry"

Dr. Gosta Lindblom — "The Value of Bite Analysis in Modern Dentistry with Special Reference to the Temporomandibular Joint"

CHICAGO DENTAL SOCIETY REGULAR MONTHLY MEETING

APRIL 21, 1953

North Ballroom

Conrad Hilton Hotel

8:00 p.m.

The speaker of the evening will be

Dr. Arthur Elfenbaum

and his topic will be

Diagnosis in the Dental Office of the Future

Dr. Elfenbaum is Associate Professor and Chief Examiner of the College of Dentistry and Director of the Hospital Dental Clinic of the University of Illinois. He received his dental degree from the Northwestern University Dental School in 1918 and holds a B.A. from the Victoria University of Manchester, England and a Teacher's Certificate from the latter school's Department of Education. He is President-elect of the Sigma Chapter of Omicron Kappa Upsilon having been elected to that Society upon his graduation. He is a member of the Northwest Side Branch of the Chicago Dental Society and has served on many branch committees.

As a preview of the central thought of his essay Dr. Elfenbaum said, "More and more we are becoming aware that the manifestations of many systemic diseases, even in their preclinical and subclinical stages, are visible in the mouth and in the dental roentgenograms. The dentist has an unusual opportunity to observe and recognize them long before his patient is prompted to consult a physician about the state of his health. Consequently the dentist in the near future will be expected to cooperate with the physician in the diagnosis, treatment and evaluation of the prognosis of systemic as well as of oral diseases. His specialized knowledge of oral medicine together with his skill in restorative dentistry will bring him the proper appreciation not only for what he does but for what he knows."

It might be added that Dr. Elfenbaum conducted a large and successful practice for twenty-five years and will be able to comment from experience upon the practical application of the principles he advocates.

George W. Hax, *Chairman*
Monthly Meeting Program Committee

WEST SUBURBAN CLINIC EVENING

TUESDAY, APRIL 14, 1953

ABSTRACTS

NON-METALLIC FILLING MATERIALS

Non-metallic materials for anterior restorations, silicate cements, acrylic resins and silicophosphate cements should be brought into proper perspective.

SILICATE CEMENT: Silicates are easily manipulated. They are esthetic, have little if any dimensional change and can be placed with little undercutting. Their disadvantages are solubility in saliva, a tendency to remain acidic which may effect the dental pulp and in mouth breathers they may dry out and discolor.

PLASTICS: Self curing plastic materials fill esthetic requirements. They are insoluble in mouth fluids and harmless to the dental pulp. They are color stable and excellent in mouth breathers. They do shrink and in many cases exhibit poor margins and leakage which may result in recurring caries. They require severe undercutting for retention. They require a painstaking and different technique.

SILICOPHOSPHATE CEMENT: This will blend with tooth structure and color. It is not soluble in the mouth and does not change dimension. Its ph is about neutral and it has an effect on the pulp similar to that of oxyphosphate cement. In anterior teeth wherever esthetics are not the deciding factor, silicacement is indicated.—*By D. L. Graitcer, D.D.S. Dental Survey, October, 1952.*
J. N. L.

THE FULL COVERAGE ABUTMENT

The precision attachment partial denture is an ideal restoration. Its success depends upon the abutment teeth. Inlays

are contraindicated since the preparation is often hazardous to the pulp, the tooth form is altered creating a lever arm, they are often loosened, and the margins invite caries.

Three-quarter crowns are subject to spreading of the margins. In porcelain veneer crowns the boxing buckles and the porcelain is subject to breakage.

A full coverage abutment is indicated and the gold jacket with the plastic veneer is the abutment of choice. It withstands stress and affords protection from fractures and recurrent decay.

In the preparation the caries, if any, is first removed, copper cement placed and the tooth reduced with diamond instruments run at low speed for better control. The preparation should extend slightly below the gingivae.

Whenever possible it should possess a full shoulder to provide a finishing line for the gold and retention for the plastic.

The impression is taken with an annealed copper band, or the hydrocolloid technique is excellent for those who master it.—*By I. F. M. Miller, D.D.S. The New York Journal of Dentistry, October, 1952.*
J.N.L.

ANTIBIOTIC DRUGS AND BLOOD CLOTTING

There is a widespread belief that antibiotic therapy encourages thromboembolism. To evaluate the effect of antibiotic therapy of pro-thrombin time, bleeding time, clotting time and platelet count, laboratory determinations were made on eight patients who received penicillin, streptomycin, chloramphenicol and aureomycin, singly or in combination.

Average daily dose was 600,000 units of penicillin, 2 gm. of streptomycin and 3 gm. of chloramphenicol or aureomycin.

There was no change in the platelet

(Continued on page 30)

NEWS OF THE BRANCHES

NORTH SUBURBAN

Your reporter is bearing a bowed head these days as he reluctantly admits that he himself missed the last North Suburban meeting. He must have been digging out one that broke off or something and couldn't get to the Georgian in time. Specific reports from Adrian Swanson, I. Milton Dawson, Leonard Grimson, Hal Chason, and several others state that the speaker was one of the best we have had in years. These men were so enthusiastic about the meeting that this writer is all the more sorry that he didn't make it. Also, we missed out on all the news, announcements, and gossip which one can usually ferret out at such an affair, hence the pickings are rather lean right now. Wonder if the Georgian Hotel will honor our unpunched dinner ticket in their dining room. A glance at said dinner ticket brings out the point that we'll have another meeting on April 14th. That's the last business meeting of the season until our outing day. Let's all be there on the 14th to thank Russ Johnson and his gang for the great work they have been doing all year. . . . In recent columns we have announced the departure of several of our members for military duty. Now it is a great pleasure to announce the return of one who has completed his obligations and is rapidly becoming adjusted to civilian life and practice. We are referring to E. James Best who has come back to the Carlson Building where he practiced several years ago. Jim has moved into the vacancy Chuck Mercier left when he went up to Winnetka. That is in O. E. Scott's suite and Scotty is quite pleased to have Jim with him. . . . Another change has taken place in Winnetka where Robert Bailey, an N. U. man who was engaged in practice on the south side, has moved into the practice of Al Fonder. A. C. has retired from practice to concentrate his efforts on

furthering the cause of a group interested in somato-prothesis. Al has been working at this project for many years. We recall his construction of facial prostheses for several of our Cook County Hospital Tumor Clinic patients during our sojourn there. . . . Don't recall whether or not we mentioned this item last time but LeRoy Smith and family are visiting relatives in Florida. That must be tough on Smitty—going to Florida, that is. . . . Hal Chason is another one going to visit relatives, namely his own folks down in Alabama. Hal is going down to the Alabama State Dental Convention, but might break away long enough to drop a hook out in the Gulf. . . . Adrian Swanson has his bags packed for a drive to Florida. Margaret, his wife, says she doesn't want to go, can you imagine? . . . It's about time for Art & Marcia Freeman to jump off for New Orleans and points in that area. Haven't seen Arturo for details on the junket. . . . Talking about "haven't sees" etc., we haven't had a word from Waukegan and surrounding points in a long time. They must be dead up at that end of the circuit. What say, George Krueger? . . . Jim Plants is corralling a couple of North Suburban men to spend an evening talking to the lassies in the Chicago Dental Assistants training program. Jim, himself, is taking two evenings of the course, a Chicago Dental Society sponsored project. . . . An item that we missed some time back was that Uncle Sam put the finger on Verne Boman, the orthodontist out of Park Ridge. Verne is at Great Lakes. . . . We have suspected that the editor of this rag has been "red-penciling" some of our contributions from time to time. Is there no freedom of the press in this periodical? At any rate, said editor pencilled himself out of an item in our last column. He must be shy. One of the flubs that occurred last time was the omission of the name of Les Boyd, *Presi-*

dent of the Lake County Dental Association. Les was home in bed because of illness and we missed him. Hope the visitation committee got around to him. Also, Bob Black of Highland Park is the hard-working secretary of the group, not Bob Placek. Guess I'll have to go back to grammar school and practice my Palmer method. Sorry, Miss Harvey. . . . The Lake County group will have its monthly meeting at Hank's Restaurant, which will substitute for the recently burned-out Officers Club at Great Lakes. The program will be presented by the Dental Department of the Training Center and Hospital of Great Lakes. That's on Monday, April 6, with martinis at 6:00 p.m. Need we say more? All right, we won't. G'by now.—Robert B. Jans, Branch Correspondent.

ENGLEWOOD

CAESAR: "What say'st thou to me now? Speak once again." SOOTH-SAYER: "Beware the ides of March." CAESAR: "He is a dreamer; let us leave him: pass." . . . Oh, Caesar! You fool, you! He ain't no dreamer; you never filled out one of them thar forms is all. . . . I hain't sayin' nothin' about the weather, mostly 'cuz Mark Twain beat me to it, BUT, if I did say anything, it would be along the lines of Cal Coolidge's minister who, when asked what he thought about sin, replied, "I'm agin it." Today, due to the weather, my foot hurts, both of 'em. Ever notice how lousy it sounds when you say, "my feet hurt?" Guess I'm just in between—too old for Serutan and too young for Hadacol. By the way, Hadacol lost its first case last week—a 94-year-old woman died—but they saved the baby. O. K., I'll be good now, just blame it on Friday the 13th. . . . There have been so many cancellations today because of the rain that this has been a regular visiting day here in my diggings. Glen Walden came in for a few minutes and reported that he and Elba entertained Glen's nefoo from Canada last Friday. . . . A few minutes ago A. G. Person came back and brought

WHEEL CHAIR NEEDED

Recently we received a call from the Chicago Health Department asking if we could arrange for badly needed dental care to be provided for a physically handicapped mother who is unable to walk and who can not leave her home. Our Committee has arranged for this mother to receive dental care from the Salvation Army Dental Clinic but the problems of transportation—getting up and down stairs, and in and out of buildings can be solved only by using a wheel chair. We have contacted a number of possible sources for wheel chairs but have not been successful.

If any CDS member has a wheel chair which can be given permanently to this mother, please 'phone us and we will arrange to have it delivered to her. A folding chair will be best but any kind will be helpful. Phone RANDolph 6-4076 and let us know—we'll do the rest.

me a big ceegar, and we voted Bob Straub an orchid for his selection of essayists, especially the one for the March 10th meeting. "Ganska bra," sez "A. G.," and in my 59th street Swedish, that means that he enjoyed Dr. Harris' remarks on pain control as much as the rest of the gang seemed to—they hated to let the man go, and only quit asking for more when they were politely told to do so because of the underhanded way the clock had of rushing along. . . . Herb. Ray left on March 7th for a week or so of golfing in Florida. Seems he has a trick ball he wants to try out. According to the story, the ball is multi-colored and is fluorescent, which should make it a natural for working in the brush, and Herb., I am told, is a lover of golf course flora. . . . I am so anxious to hear from Ben Jostes when he returns from his trip. He left on the 11th and is to meet Herb. and play golf with him, and Ben took my

new invention with him to try out. Honestly, I believe that my pill is far superior to Herb's for *finding* properties, for you see, my pet shoots off three balls of fire like a Roman candle, and then sings, "Trees" in a high tenor until picked up. . . . Vermeulen? Well, Ma and Pa ain't speakin'. March 15th (after income tax yet?) saw the Vermeulens off to Florida. Ted wanted to fly, and Mrs. V. wanted to drive down. Can you imagine that? In *last year's* old Cadillac!! So-o-o-o, they compromised, and drove (what else?). . . . The new car department is headed this time by Louis Sasso who is sporting a baby blue Cadillac convertible. . . . Incidentally, do you suppose that Olivi got scared off because of my remarks about *his* new car? Mebbe he was afraid that you guys would gang up on him—anyhoo, he didn't show up at Nielsen's. . . . He is busy with his handball, however, and plays with a group of pros. Right now he is in two tournaments, one is for the 111th street "Y" championship doubles. I learned of this from Lucas, who plays a mean game himself, so it must be true. . . . Lucas spent the week end visiting friends in Cincinnati, Oh-ho-ho. . . . John "Red" McMahon is off to Florida for putter practice to try to catch up with Ray Van Dam. He will take over where Ray Anderson left off. Ray was at it for three weeks, and came home anxious to try out his new snow plow! . . . Dinner chairman Jason has his hands full right now, what with a new home *and* a new medical building into which he plans to move on May 1st. . . . J. E. Boles is to enter Navy service March 19th. . . . J. R. Hilton will be up to his neck in "eye dew" April 11th. . . . Milt Cruse is looking forward to his homecoming. He has been honored by Northwestern University by being selected for their Award of Merit for service to the school. The award will be presented at the June Convocation in Evanston, and Milt plans to be on hand, bless him. Mama Milt is fussin' and fixin' up the house to have it all cozy for the big day. I know that many of you will want to write to Milt about this and other goings-

on, so here is his address for the moment. Santa Rosa Hospital, San Antonio, Texas, room 445. . . . O. E. Johnson reports that Dan Duffy is to fly down to—you guessed it—Florida, in search of sunshine and rest, and perhaps a few fish. . . . Ted Lindholm is in Miss. visiting his folks. . . . Xi Psi Phi featured Englewood's three graces (Milas, Kalk, Starshak) at their headquarters in Abbott Hall recently, where the men gave their clinic on root canal therapy. AND, Tom Starshak had an article on "Diffusion Technique in Root Canal Therapy" in the Dec. issue of the *International Dental Journal*. This was a boiled-down version of the paper Tom presented before the International Dental Congress in London. . . . Francis O'Grady is *not* going to Florida. He simply ain't interested in the place. But he *did* have a news item for me—his stable-mate D. F. Hattendorf has accepted a teaching position at Loyola Dental School. . . . Did you know that Wally Laederach is quite ill??? . . . Poust is back on the job after a three-week rest. . . . R. J. Waska (BOO!) lectured before the Chicago Photographic Guild recently. His subject was, "Art As I Have Found It." His keynote was, "Build your art horse-high, pig-tight, and bull-strong." He also said a few thousand well-chosen words on "Hyper Close-up Photography." . . . NOW HEAR THIS. Any of you girls shy a *few days* of the required minimum Navy service? If so, the secretary of Englewood, Hon. Francis O'Grady (HU 3-2223) will be glad to hear from you—and *vice versa*. 'Nuff said? . . . The Englewood April meeting means election of branch officers, don't forget. . . . Oh, me, I just had lunch with Francis O'Grady and I feel like a python digesting a young antelope. My vest buttons are as tight as zither strings, but after all, what's a hard artery or two or a couple of pounds of extra blood pressure against one of George's *déjeuner* of *petites saucisses au vin blanc* and a bottle of *Château Yquem lur Saluce*? I can't understand why the French bother about sex.—*Piedtyper of Ramblin', Branch Despondent, Local 602.*

NORTHWEST SIDE

Sure did get cooperation from the Northwest Side branch members after the last meeting. . . . Sid Goodman has just moved into his new home. . . . Elmer Jacobson, Ted Siegel, and E. Kapustka helped Ben Davidson with the March School examination. Last time I saw him, Ben was trying to get some more help, especially for April 8. Anyone interested, please call Ben. . . . Ladies' nite tickets are on sale. That is efficiency plus—thanks to Thad Chrobak. The affair will take place on May 6th at the Tam O'Shanter Country Club in Niles, Ill. Cocktails will be served at 6:30 and dinner at 7 o'clock. We'd like this to be as fine an affair as last year or finer. Call Thad Chrobak for your tickets and help make it a successful evening. Each lady present will receive a gift. . . . All those present at our last meeting wish to thank Maury Massler for such a fine lecture. We're looking forward to his return in the near future. His topic was "The Post-Menopause Syndrome." . . . Our next meeting will be April 14. The guest speaker will be Robert Kesel, from the University of Illinois. His topic will be "The Present Status of Caries Control." . . . Next year's officers will be installed on May 6th—Ladies' Nite. The officers will be as follows: President, John Gates; president-elect, Casimir Rogalski; vice-president, Joseph Lebow; secretary, B. B. Pawlowski; treasurer, Frank Brzezinski; director-chairmen, Theodore Serr, Mitchell Kaminski, A. H. Altern. . . . Elmer Imber is vice-president of Chicago B'nai B'rith Council. He is also head man in Bonds for Israel Drive in Chicago. . . . Bob and "Gush" Placek are having a fine time in Mexico. They had covered 1800 miles by auto last I heard. . . . Mrs. Kaminski underwent surgery, do hope she is getting along well. . . . We were honored at our last meeting with the presence of Angela Bouga, from Athens, Greece. Angela is a student in Pedodontics at the University of Illinois. . . . Keep me posted.—*Sonny Litturi, Branch Correspondent.*

WEST SUBURBAN

On Tuesday evening, March 11, members of the West Suburban Dental Society met for dinner and a scientific program at the Oak Park Club. This was not merely *another* meeting and this was not merely *another* branch. Our guest that evening was Jim Keith, president of our parent society, the Chicago Dental Society. I am certain that he was impressed with our group, because his after-dinner talk reflected this attitude. The necessary business was handled with thoroughness but with dispatch. Each standing committee rendered a report upon the progress of its particular problems and work. I am never bored because of the vital interest shown by the man reporting his committee's work. Certainly our president, Joe Lestina, does a grand job as head man, his fellow officers are probably the best one could ask for—the society membership has given a vote of confidence and at this meeting cast a unanimous ballot electing the following: President, Rudy Hinrichs; pres. elect, Lyle McNamara; vice-pres., Richard Anderson; secretary, Ed Kritzke; treas., Wallace Kirby; and Howard Buchner as librarian. Congratulations, gentlemen!!! We'll all work with you. Our speaker this evening was Dr. Robert Grissom who discussed coronary heart disease. I seldom get the opportunity to see two such fine attributes in one individual. Dr. Grissom has the talent to put over the material he was discussing. His techniques, all unobtrusive, certainly held the attention of all 75 members who were present. In addition, Dr. Grissom knew his material. He was more than adequately prepared for us. All this reflects on the wisdom of Bob Atterbury, chairman, and other members of the program committee. Orchids to you for providing the best for us. . . . I refer you to one of the front fly leaves of this issue to note what this committee has in store for us on April 14th, the annual clinic evening at the Oak Park Club. . . . Rudy Hinrichs with an excellent tan has returned from

NEWS OF THE BRANCHES

(Continued from page 19)

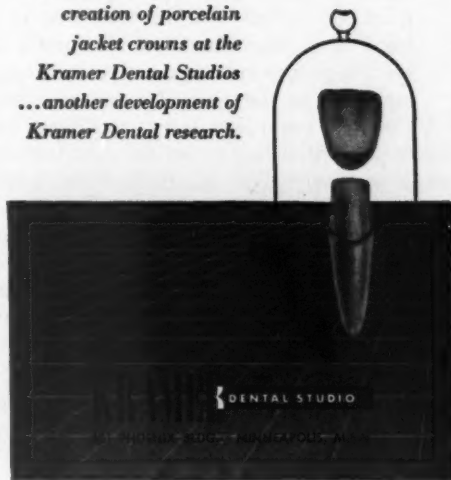

Mexico for a brief vacation. . . . Bob Pollock reports great things for us at the Illinois State Dental Society meeting to be held in Peoria on May 11 through the 14th. Make the trip, it will be worthwhile. . . . We saw many new faces at the last meeting: C. D. and A. F. Mastrud, Myron Umbach and others, it was nice to see you, come out again. Harry McArdle, late of Maywood, has moved his practice out to Naperville; good luck, Harry! . . . We sadly report the untimely death of J. J. Urbanek, Jr., one of our branch members. He passed away late in February, 1953. . . . Art Skupa, on the sick list, has returned and is well again. . . . Another member, C. Rybacek, reports that his son has opened his office in Cicero, the younger Rybacek is an optometrist. . . . Tom Barber recently returned from a fraternity conclave in St. Louis. By the way, did you see him on TV? He gave an excellent half-hour on the whys and wherefores of children's dentistry. It was terrific. . . . The next ROUND TABLE meeting at the Oak Park Club, the first Monday in April will bring William Schoen, editor of the Illinois State Dental Journal. See you there? . . . Our lovely ladies, the West Suburban branch of the Chicago Dental Assistants Association, report that at their next meeting on April 2 Dr. M. Weiss will speak on Periodontia. There will also be an election of officers.—*Anthony J. Malone, Branch Correspondent.*

SOUTH SUBURBAN

It has been said that man thrives in the face of adversity. In spite of one of the worst nights weatherwise, we had one of our best attended meetings of the year, and those men who did come out were well rewarded. Our speaker, Harold Epstein, to my mind and in the minds of many others, gave us one of the most informative talks we have had

to date. Speaking on practical endodontic treatment for the private practitioner, Dr. Epstein held the attention of the group for the better part of two hours. Our thanks to you, sir! . . . Alpert has moved into his new quarters in the new Professional Building in Park Forest. Good Luck! . . . Mike Hughes finds that it is hard to divorce himself of the needs of the Flossmoor citizenry and has opened an office in the Civic Center in Flossmoor for Saturdays only. . . . Raking up the stuff that has settled near the bottom of the barrel, Dan Altier has been called in for a physical examination by good old Uncle Sam. . . . In the new member department, we can add the names of Herb Rosen of Worth, Ill., and James Daly of Homewood. . . . President Pippert has appointed a committee for arrangements for the annual golf outing consisting of Hughes, Iagmin, Altier, and Madory. If any of you men have any suggestions for the affair, you might con-

sult with one of them. . . . For our April meeting we are to have for our speaker Gordon Rovelstad on the subject of Pedodontia. That's all for now, see you then.—H. C. Gornstein, Branch Correspondent.

WEST SIDE

Our last meeting on the West Side was not only well attended but the steak dinner was out of this world as well as the cocktails and it was enjoyed by all. Try to make the next meeting to partake of this "feast of the kings." Our essayist, Dr. Robert G. Pinkerton, gave a very interesting as well as practical lecture on Crown and Bridge, with lantern slides to demonstrate his technique. Ed Rus, chairman of the Nominating Committee, presented the following slate of officers for nomination: President, Max Chubin; Vice-President, Irvin Miller; secretary,

KENWOOD-HYDE PARK

Remember, I told you fellows not to miss the last meeting. Any time one of the boys from the Class of 1923 of N.U.D.S. puts on the show, it's bound to be good. Donovan Brown really gave us one of the finest talks on Periodontia that I have had the pleasure of hearing in many a moon. Congratulations, Donovan, you did a swell job. . . . Now on Tuesday, April 7, at the Sherry Hotel, 53rd and the Lake, will be held Kenwood's all Clinic Night. Chairman Seymour Yale has lined up an all-star card. So plan to be there. . . . Here are the clinicians and their subjects:

1. D. Laskin and I. Robinson; Management of Dry Sockets.
2. Robert Appleman; Prosthetic Appliances.
3. Paul Chung; Anatomic Duplication and Natural Coloring Technique in the Complete Dentures.
4. J. Gevirtz; Extension Cone Technique.
5. David Torch; Space Maintainers.

6. A. Sherow; Banded Amalgam Crowns.

7. Harry Raffel; Bread and Butter Dentistry.

8. Frank Pelka; Current Advances in Fixed Bridge Work.

9. Roy Eberle; Centric Relation in Supine Position.

10. Seymour Yale; Differential Diagnosis of Soft Tissue Lesions.

. . . Louie Prendergast is spending the month of March with Grace and Walter Scanlan down in Coral Gables, Florida. The latest reports are that the boy has been setting the fashions for that section of the winter capitol. . . . Grayce and Roy Eberle returned safely from their southern sojourn. They traveled 3200 miles in 10 days and stopped to eat and sleep. . . . Mrs. Fisher and Wayne Jr. recently returned from a visit to Florida where Wayne married off one of his old pals. He reported the weather was fine and that the vegetation was blooming beautifully. . . . O. K., scratch the old appointment book and call Howard Harvey at VIncennes 6-3059 for that dinner reservation and be at the next meeting. You can't afford to miss. . . . Election of Officers for the coming fiscal year will take place at the April Meeting. The Nominating Committee presented the following slate at the March Meeting: Pres.-Elect, Mark Reardon; vice-pres., Graham Davies; secretary, Roy Eberle; treas., Rudy Grieff. . . . So, we will see you April the 7th.—*Harry Hartley, Branch Correspondent.*

UNIVERSITY OF ILLINOIS OFFERS POSTGRADUATE COURSE

A new postgraduate course in "Cardio-vascular Diseases and the Dentist" will be offered by the University of Illinois College of Dentistry on Wednesday afternoons, beginning April 8.

The course will be given over a period of six continuous Wednesdays. Classes will be conducted from 4 to 6 p.m.

Dr. Maury Massler, professor of pedodontics and head of the department, will supervise the course. The faculty will include Dr. Harry Sicher, Loyola University School of Dentistry; Dr. Norman Robert, Dr. Carl Marienfeld, Dr. George E. Wakerlin, and Dr. Louis Feldman, University of Illinois College of Medicine; and Dr. Bernard G. Sarnat, University of Illinois Colleges of Dentistry and Medicine.

Specific aspects of the course will include dental management of the patient with cardiovascular diseases; the dentist who has a cardiac condition; the dentist's role in preventing cardiac damage in patients, in view of the fact that dental extractions produce bacteriemias; and the physiology and anatomy of the heart.

A postgraduate course entitled "Roentgenology—Undistorted Long Cone Technique" also will be offered on Wednesday evening, starting April 8.

The tuition fee for each course is \$25. Registration may be made by writing to Dr. Isaac Schour, Division of Postgraduate Studies, University of Illinois College of Dentistry, 808 S. Wood St., Chicago 12, Ill.

ABSTRACTS

count, bleeding time or clotting time of any patient. In six patients, no change was found in pro-thrombin time. In two patients, an increase in pro-thrombin time occurred after the sixth day of treatment.—By M. A. Miller and H. E. Bass. *J.A.M.A.*, Oct. 25, 1952; from *New York State Journal of Medicine*. J.N.L.

PROCAINE IN DENTISTRY

Procaine is not usually regarded as a toxic anesthetic. However, when administered in large doses or in high concentrations, caution is indicated. In sensitive individuals even small doses may produce alarming or even fatal reactions, especially if it is accidentally injected intravenously.

An intravenous injection of procaine may be as much as 16 times as toxic as 6 subcutaneous injections. The author believes that most of the unpleasant side reactions that occur are the result of inadvertently entering a vein.

Sicher remarks on how frequently the needle enters a vein in mandibular block injections.

By aspirating before injecting, this can be eliminated. Our present cartridge-type containers prevent aspiration but a new cartridge plunger has been designed that can be used with any syringe and solution. This is a self aspirating domed rubber plunger.—"ACCIDENTAL INTRAVENOUS INJECTION OF PROCAINE IN DENTISTRY" By N. B. Jorgensen, D.D.S. *So. Calif. State Dent. Journal*, September, 1952. J.N.L.

For greater protection of abutment teeth and patient comfort
the MODERN CLASP by Nobilium

Modern Clasps have more "give", show a *minimum* of metal. Illustrated here are several basic types for greater protection of abutment teeth, longer mouth service, better aesthetics.

THE functional designs of Modern Clasps eliminate stress and strain on abutment teeth, prolong their life and protect them from the clutching grasp of ordinary clasps—yet hold the appliance firmly and comfortably in place. The gentle, rather than rough, clasping action is due to the fact that the fingers of the clasp are independent of the rest. This separation provides not only for greater flexibility and stability in the clasp but greater adjustability—a factor that lengthens the service life of the case and the abutment teeth.

Add the advantageous physical properties of Nobilium, Aristocrat of Chromium Alloys, and you can be assured of restorations that give an unlimited mouth service. For maximum strength with lightness, maximum hardness with resiliency and maximum satisfaction, entrust the design and processing of your partials to your nearby Nobilium laboratory.

Presenting two new
 prosthetic aids of major
 importance in your
 full and partial
 denture practice

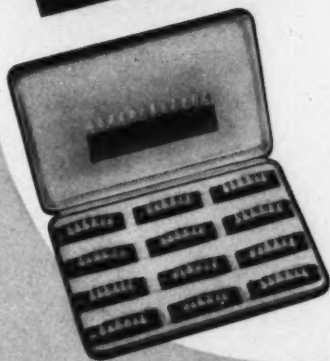

THE TRUBYTE Bioform® MOULD GUIDE

You'll want this new Trubyte Bioform Mould Guide for a number of reasons—but mostly for the great convenience it provides to the busy practitioner. It will enable you to quickly and accurately select teeth for your full and partial dentures. It will save you time and money in resets and remakes. Here in one attractive case are all the available upper and lower anterior moulds of Trubyte Bioform Teeth, with complete information on dimensions and articulations.

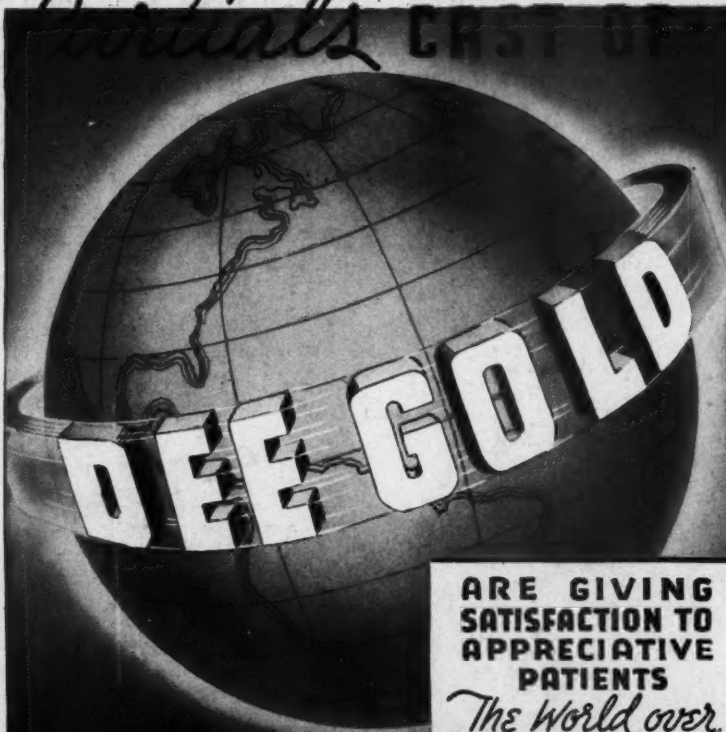

THE TRUBYTE Bioform® SHADE SELECTOR ASSORTMENT

Here is the easy and practical way to select shades for full and partial dentures. It practically eliminates the resets, remakes and disappointments that often follow selection with a single shade guide tooth. Why not try this practical prosthetic aid today. It contains 1 x 6 of the twelve shades of the Trubyte Bioform Natural Tooth Color System—the only fully correlated system which offers a full range of selection for all ages and complexions.
